HONORS HIM.

COL. I. N. WALKER.

ed the name of Colonel Ivan N. Walker, of Indianapolis, for commander-in-chief. T. S. Clarkson, of Nebraska, said that his department had presented his name as a candidate for commander-in-chief. He would, however, decline to be a candidate against Comrade Walker, and moved that the rules be suspended and the adjutant general be directed to cast the unanimous vote of the encampment for Comrade Walker. The motion prevailed with a hurra-cane of cheers. When order was at length restored, Commander Lawler formally declared Colonel Walker elected. Colonel Walker, in thanking the comrades, said that he deeply felt the high compliment which they had bestowed upon him in electing him to the highest office within their gift.

In the contest for senior vice commander, both the candidates were from Kentucky. They were General E. H. Hobson and Michael Minton. General Hobson being elected. C. E. Cosgrove, of Washington was elected junior vice commander over J. O. Gregg, of Montana.

Greetings to the ladies of the Grand Army of the Republic were then read, and the encampment adjourned till 9 o'clock to-day.

The Woman's Relief Corps and the Ladies of the Grand Army of the Republic held sessions and the veterans met in corps, brigade and regimental reunion all over the city. The army nurses were entertained in the morning and the Daughters of Veterans gave a brilliant reception to G. A. R. veterans and other visitors.

The Women's Relief Corps met at Library Hall, Mrs. President Wallace presiding. The total membership at the present time, according to the reports, is 110,774, a gain of 35,696 members over last year. The total number of the corps is 3,141, a net gain of thirty-seven during the year. The amount expended in relief is \$64,969. The total amount expended during the year, including relief and current expenses, was \$188,329, while the total amount of relief furnished since its organization is \$1,210,890.

The Ladies' Circle of the G. A. R. met at the Board of Trade, with Mrs. President Gunlock presiding. The opening exercises were devoted to hearing annual reports, which showed increased membership and good conditions generally. The ladies of the circle, however, showed no general disposition to unite with the Woman's Relief Corps.

Henry Watterson spoke in behalf of the City of Louisville and was warmly

MAJOR THADDEUS S. CLARKSON, received and listened to with close attention. Commander-in-Chief Lawler, in his annual address, touched on many subjects of interest to the veterans. On the subject of pensions he said:

"While we are not asking for any new pension legislation, we do ask and insist that when a law is passed by congress its provisions, as intended by them, shall be carried out and not misconstrued and misapplied by any man or set of men of any party who may be in power. I am not a lawyer, but I know the verdict of any court of loyal men would be that after a man has

furnished the proofs and has been granted a pension that pension cannot be taken away from him without due process of law. I know this is being done, however, all over the land, for I have seen the evidences of it in every department in which I have been—pensions reduced from \$12 to \$8, and from \$8 to \$6 and many cut off entirely. I would recommend that the incoming counsel of administration be empowered to select a case and prosecute the same."

On the question of Decoration Day the commander-in-chief said: "Let us see to it that the day is kept as a memorial day. Let us denounce in our own communities any desecration of the day, such as races and games, excursions, balls and other amusements, of which there is too much on this day. The tendency is to forget the objects of its observance and make it a day of pleasure and recreation."

The commander-in-chief said in conclusion: "On my first visit to Washington, D. C.—when I did not see the President—my heart was pained as I listened to the recital of the sufferings of our comrades caused by their dismissal from the departments, and their belief in the power of our great organization to again restore them to places from which they claim they were dropped without cause, convinced me that we ought to have a special committee to look after and help them."

James Whitcomb Riley was then called on, and recited an original poem. The report of Adjutant General C. C. Jones showed that the total membership in good standing on July 1 was 357,639. The number of members suspended at the same date was 49,600, figures which he regards as astounding. Nearly 8,000 veterans died during the year. There are 7,245 posts in the country.

The total amount expended for charity was \$198,898. The Adjutant General recommended that the time for holding the department encampments be not before Jan. 1, nor later than May 15.

The report of Inspector General C. V. R. Pond, showed that the posts have \$1,305,913 in securities and \$1,949,067 in other property, a total of \$3,254,970. The report of Quartermaster General J. W. Burst showed receipts from all sources \$33,427 and the expenditures \$29,498, leaving a balance of \$12,333. The receipts from the per capita tax \$9,154, a decrease of \$253.

At the afternoon session each department presented its name for the committee to frame resolutions on the death of the young militiamen killed by the explosion of the caisson Wednesday. The committee was directed to attend the funeral in a body.

The roll was called for nominations for the next annual encampment. Col. Albert D. Shaw, of New York, presented the name of Buffalo. L. F. Brewster of Denver, presented the name of that city. H. A. Castle, of St. Paul, renewed the invitation which St. Paul had sent to the encampment one year ago, and told how, at that time, she had withdrawn in favor of Louisville. Comrade McCarthy read a letter from the Chicago and Western Railway Company, in which that company guaranteed a rate of 1 cent a mile. W. W. French, of Tennessee, extended an invitation for the next encampment at Nashville. A combination was formed for St. Paul. New York voted solidly for Buffalo, while Pennsylvania, Ohio, and Illinois gave their strength to St. Paul. The first ballot resulted: Nashville, 33; Denver, 106; Buffalo, 226; St. Paul, 393. The vote was then made unanimous, and Commander Lawler declared that the next annual encampment would be held at St. Paul.

RECOVER THE BODIES.

Victims of the Osceola Mine Horror Brought to the Surface.

Calumet, Mich., Sept. 13.—About 7 o'clock yesterday morning a party, consisting of Captains Proby and Richards with five men, went down shaft No. 4 of the Osceola, which had been nearly freed from smoke and gas by driving steam down No. 1, causing an up-draught in No. 4 and clearing the shaft. It was about 1 o'clock p. m. when the bodies of the twenty-three men were all taken out and they were laid side by side in the carpenter shop of the mine. Later in the afternoon two more bodies were recovered. Following are the names of the men: Captain Richard Trenbath, Richard Bickel, Thomas Courtis, Alex Daniel, Richard Grenfell, James Williams, Frank Lander, Jr., Michael Johnson, Isaac Harra, Peter Strangard, John Matza, Andrew Rosen-ski, Mike Schultz, Joseph Raze, Steve Oriski, Michael Stalta, Mike Vok, Venz Verbanec, Steve Bostivick, Peter Malstrom, John Cudlip, Walter Dahl, Barney Heloner, Anton Zewick, Ames D. Harrington. A coroner's jury has been impealed to investigate the causes of death. The bodies were not even scratched and each man bore a look as if he had fallen asleep, showing the quick and deadly action of the gas.

To Tell of Booding.

Elgin, Ill., Sept. 13.—Subpoenas have been served on three Elgin men to appear before the Springfield grand jury and testify in the case against the legislative boodlers. Mr. Sherwin is ordered to take with him his famous letter which is said to implicate Senator Hawley in booding in connection with the dairy bill.

DUNRAVEN GOING
RIGHT BACK HOMEVALKYRIE STRIPPED OF HER
RACING GEAR.

Her Lordly Owner Says His Boat Will Never Race Again on American Water—He Started Yesterday Merely To Give Defender a Clear Title to the Cup.

New York, Sept. 13.—Lord Dunraven said today that his boat would never again race on American waters. Valkyrie was towed to the Erie basin this morning and the work of fitting her for her return home was begun rapidly. All her racing gear was taken down. Defender started for New Rochelle at 10 o'clock. Every yacht in the basin fired cannons as she left. Yesterday Dunraven went to the starting point with the intention of not racing, the Englishman's reason for this course being that he could not secure a fair field for his yacht on account of the fleet of excursion and other vessels that were present at the races.

DEFENDER.

The following statement, made by Lord Dunraven in response to a cable request from the Reuter's News agency, briefly gives his reasons for the action.

"Owing to the excessive crowding by steamers at the first two races, especially at the start off and on the last ten miles of the second race, I notified the cup committee on the 11th inst., requesting that the letter be not opened until after a decision had been reached with regard to the foul at the start of the second race—that owing to the danger of a serious accident by collision with the excursion steamers and otherwise, and owing to the absolute absurdity of carrying on races under such conditions, I should decline to start unless some arrangement were made to race in clear water. I requested a postponement of to-day's race, with a view of arriving at such an arrangement. The committee found it impossible to concede this. I then notified them that I should be at Sandy Hook lightship this morning for the purpose of giving the Defender a start. DUNRAVEN."

Lord Dunraven last night made the following explanation of his views to an interviewer:

"I am quite satisfied that I cannot, off New York, sail a race for the America's cup under satisfactory conditions. The situation is this—I do not believe that I have a superior boat."

"I do not believe that I should be subjected to an insult from the regatta committee of any yacht club, or from the representative of any challenging syndicate. It was not my way; I was forced to it."

"I know that I cannot get a show, I saw Hail put up his helm—or thought that I saw it. I have no criticism to make upon Watson. He turned out a good boat. She crossed the Atlantic ocean, and if she could not win it was not the fault of Watson. Watson is not responsible and, of course, you know it, for my actions. The Valkyrie is my yacht."

On the whole the international series has been an extraordinary one, and while the result is satisfactory to the American people two at least of the contests that went to make up the match were not. The Defender won in a clean race Saturday; Tuesday last she crossed the line behind the English boat, but was awarded the race on a foul; yesterday she had a walkover. Lord Dunraven said Wednesday night and he said most emphatically, that he would withdraw his boat on the morrow if an absolutely clear course was not provided. He claimed that during the previous race his boat had been greatly interfered with, and as everything depended upon the outcome of the third series he adhered to that decision so closely that the Valkyrie merely crossed the starting line and then retired from the contest. The Defender, who was well in advance when the handicap gun was fired, continued on her journey, and went over the course well within the time limit. By her three straight victories the Defender retains the historic cup for America.

General regret is expressed that the series for the America's cup, begun so auspiciously and promising so well, has ended so disastrously, for while the question which arose as to the winner of the second race might have been passed by unheeded had a stirring contest taken place yesterday, the withdrawal of Lord Dunraven in the third and perhaps deciding event has necessarily had a depressing effect upon all those identified with the great match, and will probably have a more serious effect in regard to future international races.

GOLD RUSHES OUT;
MORE BONDS SOONMEMBERS OF THE SYNDICATE
DRAW HEAVILY.

Firm of Lazard Freres Takes Out Two Millions and a Half in Gold—Wall Street Talk is That Another Issue of Bonds Will Be Made Soon.

New York, Sept. 13.—Lazard Freres created consternation by withdrawing two and a half millions in gold from the treasury this morning. The firm is a member of the bond syndicate, pledged to Secretary Carlisle to maintain the gold reserve until October. Since Monday the registered loans at the stock exchange have been down 2 per cent in the bid price and the coupons 1½ per cent. The cause of the easier tendency of the bonds is the belief in many circles that a new government loan is impending. As a matter of fact, the visit to this city of Assistant Secretary of the Treasury Curtis on Thursday of this week was popularly ascribed to negotiations to this end. Well informed financiers discredit the rumor and Mr. Curtis himself stated that he was not aware of any immediate probable change in the treasury situation. In the first rise after the issue of the new fours the bonds sold up to 124½ and on the second rise, about two weeks ago, to 123½.

HEAVY FOREST FIRES.

Wisconsin and Michigan Farmers in Grave Danger.

Appleton, Wis., Sept. 13.—The swamp fires in Outagamie county are more threatening than ever. Almost the entire township of Bovina is as dry as tinder. Thousands of acres of swamp are burning, and the village of Shiocton may be swept out of existence. If the wind comes up many farmhouses and much property and all the town of Shiocton will be destroyed. The only hope is that the wind which is now north will not freshen. The swamp fires in Center and Grand Chute have spread to the timber and the flames are twenty to forty feet high, lighting the country for miles around. The farmers in Grand Chute and Center will not suffer as those in Bovina. In the other town if wind arise soon some may not escape with their lives. Most of the farmers in that town have removed their personal effects ready to leave at a moment's notice.

Hutchinson, Mich., Sept. 13.—Serious forest fires are reported along Paint and Fence rivers, in territory lying between Michigamme and Crystal falls. The district is sparsely settled and has neither railroad nor telegraph facilities. It contains some of the finest tracts of pine yet uncut in the upper peninsula of Michigan and is the best game reserve on the south shore of Lake Superior.

Trial of the Coffins Commences.

Indianapolis, Ind., Sept. 13.—The case of the government against Francis and Percival Coffin charged with conspiracy to wreck the Indianapolis National Bank, opened yesterday. Attorneys for the defendants showed that the volume of business between them and the bank had aggregated more than \$1,000,000 and said that proof would be offered to show that all their transactions were carried on in good faith and that but for the failure of the bank they would have been able to liquidate the indebtedness.

CHINESE STONE A BRITISH CONSUL

Shanghai, Sept. 13.—The British consul at Wen Chow has been stoned by a mob.

G. A. R. GRAND STAND GOES DOWN

Another Sad Accident—Mass Louisville Festivalists.

Louisville, Ky., Sept. 13.—At 8 o'clock last night, just as thousands of spectators had been seated on the levee to witness the extensive fireworks on the river, there was a terrific crash like a clap of thunder. Instantly the cries and shrieks of thousands of women, children and men were heard, while appeals for help arose from every side. About 10,000 persons went down in the crash of the immense viewing stand of the citizens' committee, on which were the specially invited guests of the citizens' Grand Army committee. Scores of men and women were pinned beneath the boards of the stand with the weight of other people bearing down on them. The report spread rapidly through the throng that many had been killed, and people rushed to the scene from every part of the city. Fortunately the report of loss of life proved to be untrue. Scores of women who were not hurt fainted from fright. In the crush it was impossible to get all the names of the injured, but the list as fully as can be secured is as follows: Mrs. Martha Hayes, Louisville; bruise.

Reeder Stein, Louisville; leg hurt.

E. D. Overton, Louisville; foot and ankle crushed.

Henry Hart, Louisville; bruised.

Kate Hines, Louisville; foot crushed.

Mrs. F. J. Ferris, Louisville; foot broken.

William Walters, left leg broken.

Miss Fedora Starr, Louisville; foot crushed.

E. J. Burke, old soldier of Springfield, Mass.; left foot crushed.

Miss Eva Willis, Indiana; ankle broken.

Mrs. A. J. Thurber, Moreland, Ky.; bruised.

Mrs. W. C. Nones, Louisville; foot broken.

Mrs. McMillan, Chicago; bruised.

R. R. Glover, Louisville; legs hurt.

Frank Martin, Louisville; legs injured.

Mrs. Marge, New Albany; left foot crushed.

Martha Walden, Louisville; body bruised.

Basil Guest, Louisville; left foot mangled.

Miss Carrie Donnelly, Pittsburg; hemorrhage of lungs caused by being crushed.

Niece of Judge Robert Thompson, Louisville; foot crushed.

Mrs. Julia Adkins, Louisville; injured in ankle.

Miss Bennett, Evansville; toes crushed.

Gen. Jasper Pickard, editor of the New Albany Tribune; foot crushed.

Dr. Robert Vaughn, Louisville; foot crushed.

Mrs. A. V. Chickering, Quincy, Ill.; left foot broken.

Miss Alice Appleton, Muncie, Ind.; ankle broken.

Mrs. John Akers, Iowa; hip crushed.

William Henry Grigg, Bluffton, Ind.; back wrenched and right leg bruised.

George DeLong, Bluffton, Ind.; foot crushed.

Seven-year-old daughter of Dr. John Hays, Louisville; bruised.

John Farris, Brookline, Mass.; foot crushed.

William B. Scoggan, Bagdad, Ky.; found unconscious and bruised; taken to city hospital.

Robert Watson, Minneapolis, Minn.; scalp wound, taken to the hospital.

Mrs. Horsfield, Louisville; foot and leg so badly crushed will have to be amputated.

Mrs. John Hester, Louisville; both feet crushed; bones broken.

Mrs. John W. Vreeland, Louisville; right foot crushed; bones broken.

Mrs. Charles Burns, New Albany; foot crushed.

The portion of the grand stand which fell was about 400 feet long and 60 feet wide. Immediately behind this part were seats elevated eight to twenty feet. On the entire stand were 50,000 persons. That no one was killed is one of the marvels. As it was the platform on which the seats were placed swerved to the rear and then settled to the ground with a crash. As it careened the planks of which the seats were made were forced together and the feet and legs of hundreds of the spectators were caught as in a huge trap. The noise of the exploding bombs and the fireworks and the cheering of the crowd was so great that only those adjacent to the portion of the grand stand which fell could hear it. Had it become generally known a panic would have followed. All the ambulances and patrol wagons in the city were summoned, and those only slightly injured were taken to the hotels at which they were stopping or to their homes.

As bad as the panic was, it would have resulted in the death of many women and children but for the presence of mind of the director of the brass band on the stand. He ordered his men to pull their battered instruments from beneath the boards, and in three minutes they struck up a lively tune, which helped to allay the excitement.

More than half a million people were on the levee when the accident occurred. There were the 300,000 visitors all present, besides the 250,000 residents of Louisville and adjacent towns.

At 5:30 o'clock they poured by thousands down the avenues leading to the river and at 7 o'clock it seemed that not another person could get on the deep slope

They Burned the Chicago Bedding Company's Plant So That Insurance Money Could Be Collected—Barney Bloch's Attorneys Declare That He Has Gone Insane.

Kenosha, Sept. 13.—The famous arson and conspiracy case of the Chicago Bedding Company came up this morning. Isaac Robinson, George Perron, Bernhardt Rosenow and Louis Jacobson were arraigned. Robinson and Rosenow pleaded guilty to the full charge. Barney Bloch's attorney made application for an examination into his mental condition, two experts being called. Bloch is only the shadow of his former self. The confessions today establish the facts of one of the boldest cases of arson ever known in the west.

WRECKED NEAR CALESBURG.

Petroleum Cars on the Chicago, Burlington & Quincy Blow Up.

Galesburg, Ill., Sept. 13.—The Chicago, Burlington and Quincy Railroad sustained the worst wreck it has had for years, just east of Alton, at 1 o'clock yesterday morning. A west-bound train broke in two and as the front part slowed up at a water-tank the rear part ran into it, causing a car of naphtha to ignite. There were twelve cars of naphtha and petroleum in the train and all were soon burning. The flames shot up hundreds of feet. Samuel Welch, twenty rods distant, a village fireman, was covered with burning oil and burned to death. Other firemen were badly, but not fatally burned. The loss to the railroad company is \$12,000. Houses a quarter of a mile away were scorched by burning oil. Oilcars are strewn along the track for half a mile, the track is twisted, telegraph poles are down, trees burned, trees blasted and the whole scene is one of ruin.

GENERAL RAISE IN WAGES.

Settlement at Pittsburg Affects Fifty Thousand Men.

Pittsburg, Pa., Sept. 13.—The wages of over 50,000 workers in the Union Iron Mills of the country for September and October have been fixed by representatives of the Merchants' Bar Iron Association and the Amalgamated Association Iron and Steel Workers. The settlement gives all employees in the finishing department an advance of 2 per cent. The rate for puddling is put at \$4.25 under the adjustment, but as they are already receiving that amount the puddlers will not enjoy an advance. At the next bi-monthly settlement wages of both the puddlers and finishers will go up at least 4 per cent more. The workers will be benefited by every advance made in the selling price.

Queen Liliuokalani Pardoned.

San Francisco, Cal., Sept. 13.—The steamer Australia arrived yesterday from Honolulu, bringing the following advices: The council of state held a meeting and after appropriating \$10,000 for expenses incurred by the board of health, the matter of pardoning political prisoners came up for consideration. The queen was pardoned and many others will be liberated as soon as the pardons are made out. Bowler, Rickard, Walker, Seward, Wilcox, and the other long-term prisoners will remain in jail. The government will allow all exiles to return to the country, with the exception of the Ashford brothers, now in San Francisco.

Robert J. Wins at Louisville.

Louisville, Ky., Sept. 13.—A fast track and a bright sunshine favored the great pacing race in which Robert J. John R. Gentry and Joe Patchen were to battle for supremacy yesterday. Robert J., the great son of Hartford, came off victorious. The fourth heat, which was paced in 2:04½, established a new record, being the fastest fourth heat ever paced or trotted by any horse. Time in detail:

Quar.	Half.	Three-Quar.	Five-Quar.
0:31½	1:01½	1:32½	2:05½
0:31	1:02	1:34	2:06½

Held Up a Train in Daylight.

Wichita, Kan., Sept. 13.—The Santa Fe west-bound train was held up in broad daylight yesterday by four masked robbers in a deep cut two and one-half miles west of Curtis, a little town in Oklahoma territory. The hold-up occurred at 3:15 in the afternoon. The robbers secured absolutely no booty, being unable to open the safe. When the news reached Woodward, Ok., a special train was dispatched to the scene with officers of the law. In two and a half hours after the hold-up the officers struck the trail and the pursuit is in the direction of the Black Jack timber south of Curtis.

Holmes Indicted at Philadelphia.

Philadelphia, Sept. 13.—H. H. Holmes, the alleged murderer and swindler, was yesterday indicted for the grand jury for the murder of B. F. Pitzel, whose mysterious death in this city a year ago, and the subsequent collection of \$10,000 insurance on his life for Holmes, led to the unveiling of the latter's remarkable criminal record. The district attorney will press for a speedy trial in this city.

TRAINMEN DANCED ALL NIGHT. One Hundred Couples Voted Their Tenth Annual Ball a Great Success.

A hundred couples testified to the success of the tenth annual ball of Rock River Lodge, No. 210 Brotherhood of Railway Trainmen. The Armory was hung with Japanese lanterns, while a big headlight at one end of the hall and a pictured semblance of a locomotive at the other made the railroad boys feel at ease. Smith's orchestra of seven pieces furnished music for the dancing which lasted until early morning. Much of the success of the party was credited by the guests to M. P. Dee, Theo. Ruggles and Frank McConnell, the members of the arrangement committee.

GARDNER IN "THE PRIZE WINNER". His Janesville Friends Glad of a Chance to Hear Him Again.

Charles A. Gardner has devoted admirers in Janesville, and they enjoyed "The Prize Winner" quite as much as in years gone by they enjoyed "Karl." The company was hardly up to the Gardner standard, perhaps, but Gardner, himself, had not changed and that was enough. Several new songs were introduced, along with that old favorite "Apple Blossoms."

DID HE KISS HER? SUSIE CAN'T SAY

STRANGE TRIAL RESULTS IN STRANGER DOUBT.

Ardent Young Man Accused of Kissing a Damsel While She Slept—Case Heard with Great Deliberation, But an Acquittal Results on the Ground of Defendant's Inexperience.

A young man whose good name had theretofore been unsmirched, was arraigned Thursday on charge of hugging and kissing a girl when she was asleep—wrapped in the arms of Morpheus and consequently not in a condition to defend herself from the stealthy encroachments of mortal arms and lips.

It was near Willow Springs that the offense was committed; in a house; in a parlor; in the night. The sleeping beauty, a lovely girl of seventeen summers, Susan by name, was lying on the lounge; a lamp was burning and the door open; the boy was bold as well as amorous; he had read in the bible that "stolen waters are sweet;" and he reasoned that stolen kisses ought to be sweeter; he tiptoed into the room, crouched down alongside the girl, placed his arm around her neck, his mouth in close proximity to hers—

A scream from the rear brought him up standing. Another pretty girl entered the room and was so horrified at the tableau that she couldn't speak—so she screamed.

Interruption Caused Wrath. The racket awoke the sleeping beauty and of course she was mad. The young man was also mad because he hadn't locked the door or doused the light.

The trial was begun in Judge McGinley's office, but as the gray beards and bald heads began to assemble it became evident that the room was too small to accommodate the swelling multitude; then Judge Osborn, counsel for the defense considerably moved that the court house was the place to try a case of such grave importance. Attorney Hogan, for the prosecution, opposed the change and moved that the room be cleared of spectators in the interest of good morals.

Judge McGinley glanced around the room and remarked that he thought if he could stand the testimony he didn't think it would shock the sensibilities of the ungodly crowd before him and ordered the procession to start for the court house.

Was the Girl Kissed? The trial occupied several hours, and some of the spectators thought the prisoner at the bar would be found guilty in spite of the proof of strongly extenuating circumstances adduced by the defense.

After eloquent arguments of counsel, the judge carefully reviewed the testimony, took into consideration the youth and inexperience of the defendant, and with a suspicious moisture in his eyes cautioned him against being caught again in such suspicious proximity to a young and tender maiden. The culprit showed by his looks that he was determined not to get caught next time and he was discharged.

Even after the trial nobody seems to be dead sure whether the girl was kissed or not.

JUDGE SPENCE LEAVES GENOA. Former Milton Newspaper Man Suspends Publication of the Journal.

Judge E. L. Spence, who used to run the Milton Telephone, and once worked in The Gazette office, has abandoned the field at Genoa Junction, where he has published the Journal for some time past. He announces in the last issue that he has quit, and will remove the office to Algonquin, Ill. In his obituary he scores the business men of the town for not patronizing him better.

LOOKING FOR A LUNATIC HERE

The Sheriff of LaFayette County is Seeking Pat Burns.

The sheriff of LaFayette county is now searching Rock county high and low for Pat Burns, the lunatic who escaped from the county asylum some days ago. The sheriff came to Janesville this morning to look for his man and interviewed the lady who thought she saw him yesterday. Burns came from Shullsburg. He was originally sent to Mendota, but being pronounced incurable by the authorities at that institution, he became a county charge. LaFayette county having no asylum of their own, made arrangements to have Burns kept in the Rock county asylum and he was quartered at Superintendent Aller's institution until his escape.

BRIEF CITY NEWS NOTES.

It pays to deal squarely and represent our shoes exactly as they are. We make no misleading statements. We make no claims of selling goods at 50 cents on the factory cost. We never offer our entire stock at half what it cost. We close out odds and ends; small sizes and mis-mates at whatever we can get, and we think our trade appreciates our methods. Brown Bros. & Lincoln.

It is said that the old maids believe that when their shoes become untied, and keep coming untied, it is time that their sweethearts are talking and thinking about them. Come around to us; we will sell you a pair and teach you to tie them so they will not become untied, and then you will not have to be talked about. Brown Bros. & Lincoln.

MOTHERS, you who are about to clothe your boys to commence the fall term of school, beware of the shoddy trash advertised, don't touch it. See what we have to say about children's suits on page four. Zeigler.

FOREIGN born fancy dress goods of harkline weave, blue, brown green, &c., with gold-tinted threads of silk playing hide and seek all across its lovely surface. New this season at \$1 to \$1.25 a yard. Bort, Bailey & Co.

WHEN a new pair of shoes is brought home never place them higher than your head if you would have good luck while wearing them and never blacken them before you have on both shoes or else you may meet with an accident and perhaps sudden death. We give this advice for we do not want any of our customers to croak with their shoes on. Brown Bros. & Lincoln.

WHILE yet the sun is hot we are busy getting choice things for autumn and winter, our early purchases are now materializing and already we are in the whirl of autumn business. Bort, Bailey & Co.

We do not sell goods at fifty cents on the dollar do not mix us up with any store that advertises to sell that way for we do not want to mislead any one. Brown Bros. & Lincoln.

If we advertised to sell for 50 cents on the dollar it would bring a plow shoe down to 50 and 75 cents. Did you buy for that at the 50 cent sale. Baown Bros. & Lincoln.

SCHOOL shoes for school boys and girls. We are loaded with them. Not a shoddy pair in the lot. See them. Becker & Woodruff.

HIGH AND LOW MET, HENCE THE CHILL

COLD WAVE FOLLOWS TWO TORRID DAYS.

Mercury Fell Thirty-Four Degrees in Twenty-Four Hours—Other Septemberers Were Quite as Remarkable—Light Showers and Slowly Rising Temperature Predicted.

Some remarkable weather is being indulged in. There was a drop in temperature today that made the people who had suffered from heat during the last two days, look around for overcoats and heavy wraps.

A "low" moved from the southwest to the northwest and a high appeared over Minnesota, a cool wave being the result with sudden changes in temperature in the trough of low and high. Rain was falling this morning over the lower lakes with light rains along the upper lakes. Frost occurred last night in Minnesota and the temperature was 34 at St. Vincent this morning with 30 at Winnipeg.

September usually indulges in some exceedingly warm weather, and the torrid temperature of the past two days is nothing new, nor was it as high as in September last year. The office records show that on September 7, 1894, the temperature was 94 degrees. On September 1, 1875, it was 90; on the 5th in 1892, 91; on the 10th in 1880 it was 94 and during the week beginning September 6, 1891, there were some very hot days. It was 93 on the 16th, 92 on the 17th, 92 on the 18th, 88 on the 29th, 90 on the 22nd and 92 on the 24th.

The forecast for tonight and tomorrow: Increasing cloudiness and showers, with slowly rising temperature.

The temperature as recorded by S. O. Burnham & Co. during the last twenty-four hours was as follows:
7 a. m. 56 above
1 p. m. 66 above
Max. 68 above
Min. 51 above
Wind north.

THE sweetheart when on his way to see his lady love, should he stub his right toe, will surely be welcome; but if he stubs his left toe he may know he is not wanted. Come to us; we will fit you so you will not stumble all over yourself. Brown Bros. & Lincoln.

A SOURCE OF SURPRISE

To Physician and Patient Alike.

Dr. Redmond, a specialist in the study and treatment of Piles and rectal diseases, recently stated that the Pyramid Pile Cure, the new discovery for the cure of piles, was the most remarkable remedy he had ever seen or tried in one respect; and that was, the instant relief experienced in all cases, no matter how severe, from the moment the remedy was applied; this was the more surprising to him, because he had carefully analyzed the preparation and no trace of opium, cocaine or similar poison could be detected.

Physicians look with great favor upon the Pyramid Pile Cure, because it is rapidly taking the place of surgical operations and because it is so simple, so easily applied and contains no mineral or other poisons so commonly used in pile cures. Dr. Easterbrook reports that the Pyramid Pile Cure not only cures the various forms of piles, but never fails to give immediate relief on the first application, no matter how severe the pain or discomfort may be.

People who have suffered from piles for years are often astonished at the instant relief experienced from the first application. Another important advantage is the fact that anyone can use the remedy without detention from business or interference with daily occupation.

Mr. J. W. Rollins of Sweet Springs, Mo., writes: I consider the Pyramid Pile Cure without an equal; it cured me in less than 30 days. I waited 15 days or more to be sure I was fully cured before writing you; I can now say I am cured and I shall recommend the Pyramid Pile Cure at every possible opportunity, because it deserves it.

Although a comparatively new remedy its popularity is such, that all druggists now sell it; if your druggists hasn't it in stock, he will get it for you if you ask him, as all wholesale druggists have it on sale.

THE BLUES.

Why do Women have the Blues more than Men?

[SPECIAL TO OUR LADY READERS.]

Are not women naturally as light-hearted, brave, and hopeful as men? Yes; but woman's organism is different from man's.

Women in perfect or good health are rarely victims of this symptom.

Women nearly monopolize the blues, because their peculiar ailments promote them.

When the female organs fail to perform their functions properly, when the dreaded female complaints appear, there is shown nervousness, sleeplessness, faintness, backache, headache, bearing-down pains, etc., causing the dreaded "let-me-alone" and "all-gone" feelings.

When the woman does not understand what the matter is, and her doctor can not or will not tell her, she grows morose and melancholy; that's the blues.

Mrs. Newton Cobb, of Manchester, O., says: "Lydia E. Pinkham's Vegetable Compound will correct all this trouble. I cannot praise it enough. I am pleased to tell every one that it cured me; and if it will cure me, why not others? I am sure my case was severe enough." It will. Get it of your druggist at once.

NO TIME TO STOP.

There is no glory in winning the America cup as the Defender has won it this year, but there is little credit to Lord Dunraven in withdrawing. He had lost one race, had beaten a disabled rival by but 47 seconds in the next, and his withdrawal from the third, therefore, looked like a dodging of defeat.

The New York course is no place for an international match, but nobody has charged that Defender was hampered any less than Valkyrie by the hovering excursion boats and small craft. Having sailed two races under conditions which his experience in 1894 must have told him would exist Lord Dunraven would have shown a better spirit by finishing the series.

CANT DEMONETIZE CORN.

Corn exports are rapidly increasing and the crop is the largest ever grown and practically out of danger from frost and everything else. This means good times for the farmers. Corn is the most valuable of all the crops, and when as now, the yield is large and the demand falls, the country is sure to be prosperous. All the corn raising states are clamoring for merchandise; mills are being worked overtime to supply them, and Janesville, whose factories find in the corn belt a profitable market, is already feeling the revival.

DAIRY SCHOOLS PAY.

Every dollar that Wisconsin spends to teach butter-making comes back a hundred fold. What a farm school can do is being shown across the water. The Danes are making the best bacon as well as the best butter in the world, and their export of both articles at exceptionally high prices, is increasing rapidly. This is not accidental. Danish farmers are now carefully educated in their work, and even the milkmaids of the country are scientific. People who learn their trade the most thoroughly are sure of the highest remuneration.

CANT BULLY NEXT TIME.

Since England went down and collected a cash indemnity by force of arms from little Nicaragua, a decided feeling of confederation has grown up among the Central American countries. Nicaragua, Salvador and Honduras have already formed an alliance and Costa Rica and Guatemala have been invited to join. England will be disposed to arbitrate her next difficulty.

The syndicate promises to go to the rescue of the treasury again, and it probably will. Nobody is alarmed at the treasury's condition, of course, but the people got so accustomed in republican days to seeing the treasury take care of itself that they can't quite get used to having national finances regulated by Wall street millionaires.

There was a coal war in Fond du Lac the other day and dealers advertised hard coal at \$5 a ton. Subsequently the dealers got together and by agreement restored the price to \$6 a ton.

It isn't strange that Milwaukee census enumerators should refuse to recognize anybody but Americans and Germans. The only wonder is that so practical a classification should have aroused protest.

There are indications that the Bill Morrison boom is being used by certain New York democrats as a cloak to hide a scheme for the nomination of somebody else.

THE REWARD OF HONESTY.

It Is Not Always So Free and Generous as to Be Very Encouraging.

"The case presented in last night's paper of a reward of \$10 being paid for the return of \$50 reminds me of a similar anecdote—only different," said the ancient New England member of the club to a Utica reporter. "It happened in Providence (R. I.) forty years ago, when the city contained but one millionaire, who was an old Scotchman named Alexander Duncan. One day Mr. Duncan, in leaving his office, dropped a large roll of bank notes in the street. They escaped his eye, but not that of the small boy, who is around everywhere, and who pounced upon the bills immediately. The roll contained \$500. When Mr. Duncan received it he eagerly counted the money and, finding it correct, he turned to the boy and said: 'I thank you, my little man.' Then, noticing the look of dismay in the poor lad's countenance, he felt in his trousers pocket and fished out a coin, which he handed to the finder of his wealth. And the coin represented—what do you think?"

"Five dollars?"

"A dollar?"

"A half dollar?"

"A quarter of a dollar?"

"Just half of that. It was an old Spanish coin that we used to call a ninepence in New England and that you would call a shilling in New York. In other words, it was twelve and a half cents which Alexander Duncan, the millionaire of Providence, paid to the honest boy who found and returned to him \$500."

To Make a Tennis Luncheon Effective.

For a tennis luncheon a very effective center-piece can be made of a pile of sandwiches cut in the shape of a racquet. This can be done more easily than seems possible at first thought. Cut a pattern in cardboard the size desired. Make it as long as the slices of bread are wide, and then by turning it end to end two sandwiches can be cut with very little waste. Of course the two slices of bread should be cut, buttered, and pressed firmly together before being cut into the shape of the racquet. Then press a baby olive firmly into the middle of the large end, and there you have a clever representation of racquet and ball, as good to look at as to eat.

The town is without protection and but for a lucky shift of the wind the entire place would have been destroyed.

INSANE MAN TOOK "ROUGH ON RATS"

CORONER'S JURY FOUND A VERDICT TO THAT EFFECT.

Albert Daverkosen Evidently Ate the Poison When He Left Home, and Was Overcome Thereby on Reaching the Sheridan Farm—Death Came to Him Alone in a Milk House

The body of Albert Daverkosen, an escaped inmate of the Mendota Insane asylum was carried from the milk-house at the home of William Sheridan, on the Alex McLeilan farm, a mile and a half from this city on the Emerald Grove road, by Sheriff Appleby and Chief of Police Acheson at 6 o'clock last night.

Was it suicide or a natural death? That was the question put before the coroners jury.

It was soon discovered that it was suicide, however, for W. T. Sherer testified that Daverkosen bought a box of Rough on Rats of him yesterday morning.

Daverkosen died all alone. He left the home of his parents, Mr. and Mrs. Harry Daverkosen, 416 Jackson street, yesterday morning.

"Give me fifteen cents, I may want to get something to eat. I am going to see if I can find work with some farmer," he said to his mother before he left. She gave him the money and he started away. That was the last time the family saw him alive.

Where he went after leaving the house, is not really known, but at noon he showed up at the home of Mr. Sheridan. He had been lying beside the road, some distance from the farm house, and had removed his coat and shoes.

Sheridan Chased Him.

It was just about dinner time that Daverkosen went to Sheridan's house. He said that he was sick and wanted a drink of water. He acted rather strangely, and hung about the house until the family became frightened. Finally Sheridan told him to go, and as Daverkosen did not comply, the former seized a corn knife and chased Daverkosen off the premises. The crazy man then returned to the place where he was lying before and again stretched out beside his coat. He had been vomiting and had taken a drink from a bottle, the contents of which seemed to burn his stomach, so Sheridan thought he had been drunk.

When Sheridan came in to attend the fair, Daverkosen was still lying beside the road. It was about 4 o'clock in the afternoon when Sheridan left the fair grounds to go home, so as to get his chores done before dark. He arrived at the farm house in about half an hour and found Daverkosen lying against some barrels in the milk house, dead.

The Authorities Notified.

Sheridan was horrified at the sight, but at once turned the horses about and drove to Janesville. At a few moments before 6 o'clock pulled up at the jail, and told Turnkey North of the find.

"You go back home," said the turnkey, "and do not touch the body yourself or let any one else touch it, and I will send the sheriff out."

Sheriff Appleby, who was up town was then notified, and in a few minutes Chief of Police Acheson, had summoned a coroners jury, consisting of J. D. Holmes, T. E. Welch, M. T. Riker, F. H. Baack, A. O. Vincent and A. H. Loucks, Justice M. P. Richardson issuing the papers.

Sheriff Appleby and Chief Acheson carried the body from the milk house to a wagon and brought it to Janesville, the coroners jury were sworn and viewed the remains at F. D. Kimball's undertaking room, after which they adjourned until 10 o'clock this morning at Justice Richardson's office.

The bottle from which Daverkosen drank was one that had contained Ayer's Sarsaparilla, and was of large size. This gave rise to the belief that he had taken poison. The bottle was found with his coat and shoes lying beside the road.

Wrote An Odd Letter.

In one of the pockets of Daverkosen's coat a letter was found. It was written in a scrawly school boy hand and its composition reflected the state of his diseased mind. It read as follows as nearly as it could be deciphered and bore neither date nor signature.

"I write this blue wooden dress stand box high supreme court do testify. I worked for Mrs. Fatsyon Allison to do up orders in the little furniture for April March. I started to death. I did that tantum. I started to death. Witness stand and witness box in supreme court Janesville. I exirant. I worked for."

The note was wet and blurred in spots, and very hard to read. At the inquest it was developed that Daverkosen bought a box of "Rough on Rats," at Sherer's drug store, yesterday morning and it is supposed that he mixed this compound with water in the sarsaparilla bottle and drank the mixture, as the Sheridans saw him drinking. They said he walked unsteadily and frequently laid down, apparently to rest. They supposed that he was drunk as he vomited quite often.

THE DEAD MAN WAS A LUNATIC
twice He Had Been Sent To An Insane Asylum.

Daverkosen was a lunatic and had been twice sent to Mendota. The first time was on March 21 last, when under the assumed name of Henry Lansing, he was arrested, examined, and committed to the asylum, the examining physicians being Drs. Whiting and Dudley. Afterwards Daverkosen's father secured his re-

lease, but he caused a disturbance at the family home soon after and was again sent to the asylum. Some time ago he succeeded in making his escape, and since then had kept out of sight until a few days ago when he attempted to rob Miss Nellie Peters. The asylum authorities had notified Sheriff Appleby to look Daverkosen up and yesterday Chief Acheson visited the family home. Mr. Daverkosen said that Albert had gone but if he came back he would notify the authorities. But Albert did not come back alive.

Daverkosen was the eldest son of Harry Daverkosen. He was born in Chicago, July 1, 1874 and until he was seven years old he was subject to severe fits, which are supposed to have affected his mind, although his father said last night that Albert had not had a fit since that time.

JURY SAID IT WAS SUICIDE.

Officer Cochrane Found Rough on Rats Where Daverkosen Was First Seen.

Considerable light was thrown on the cause of death, by Officer Wallace Cochrane's visit to the Sheridan farm during the noon adjournment of the inquest. The officer searched about in the field where Daverkosen was first seen by the Sheridans and found spots of a greyish substance on the turf. The turf on which these samples were found was dug up and brought to this city where Dr. Joe Whiting examined it. The doctor pronounced it Rough on Rats and as it was mixed with mucous and was found about where Daverkosen lay the jury at once formulated their verdict that Daverkosen died from the effects of Rough on Rats, taken with suicidal intent. The officers think he took the poison as soon as he left town and then walked to the Sheridan farm, where it overcame him. Mr. Daverkosen said his son had frequently talked of the quick action of Rough on Rats, and that he had once taken a box away from him and locked it up.

THE POLICE FOUND NO CRAZY MAN

Officer Hogan and Constable Cochrane Search For a Lunatic.

Chief Acheson was notified this morning that an aged man who bore all the evidence of insanity had been seen marching majestically all along the road at Milton avenue, so Officer Hogan and Constable Wallace Cochrane took the patrol wagon and went to look for him. The aged gentleman had changed his course in the mean time, however, and the police could not find him.

DID YOU LOSE A SORREL MARE?

The Milwaukee Police Have One That May Belong Here.

Chief of Police Acheson has received a note from Chief of Police Jannsen of Milwaukee asking if any Janesville person has lost a sorrel mare eight years old with a white stripe in her face; three white feet, weight 1050 pounds. The animal was attached to a red road cart and is held for her owner to appear and claim her.

COOL DAY FOR FAIR HOT FOR JUDGES

IRATE EXHIBITORS ALL WANT FIRST PRIZES.

Premiums Awarded in All Departments.

—The 2:20 Race Attracts Much Attention, But the Loudest Yelling Is Done Over the Runners—Janesville Artists Win Honors.

There couldn't have been a better day for fair-goers than this—cool and invigorating—but clouds kept many away during the forenoon leaving afternoon ticket sales to bring up the average.

Judges finished their work in all the sections. Cool as it might have been outside it was nice and warm for them. The judges of the domestic display came near having all their hair pulled out in a struggle between rival quilt embroiderers. Tears flowed hot words were spoken and Secretary Watt's presence was finally demanded. The secretary proved himself a very Solomon.

He walked as far as the door of the hall with the irate exhibitors. Then he halted suddenly and said:

"You go in and talk the thing over with the judges, please, and I'll be with you in a moment. I must have just a word with Gleason about the 2:20 race."

That was the last anybody saw of the secretary until the quilt makers had talked themselves out of breath.

Yelled Over the Running Race.

There were two lively races during the afternoon. Local interest centered in the 2:20 trotting, because Ed. F. Carpenter's Dolly H. was among the starters, but the running race was what made the yelling. A three days' running meeting in Janesville would leave most of the population so hoarse as to be speechless. The summaries:

2:20 Trotting—Purse \$250

Wm. Kach, Heyland Stock Farm, Milwaukee. 3 3 2

The largest collection of tobacco tags was shown by Orrin Clark, the next largest by Kay Lorenzen. The biggest displays of postage stamps were made by Mamie Kelle and Sol Drapkin. He was chosen for that high and honorable position at the national encampment at Louisville today, the first announcement of his election coming to the doctor in the shape of a telegram from E. O. The choice was made by acclamation.

Dr. Whiting had not sought the office but the Wisconsin delegation went to Louisville enthusiastic in his cause, a resolution of instruction having been passed at the last state encampment.

His election to the position is a compliment well deserved. He will honor the office, and a host of Janesville and Wisconsin friends will join in sincere congratulations.

FOOTWEAR.

Relative Merits of Dark and Light Shoes and Stockings.

Black shoes have been the rule for a long time, and black stockings have enjoyed favor for a number of years. It has been asked why the lower extremities cling to one color so pertinaciously, and that color black, which, in the case of shoes at least, is easily damaged and shows mud and dust so conspicuously. The one overpowering reason may be assumed offhand to be that black shoes make the foot look smaller and better shaped than it does in any color. Again, defects in leather are concealed by the black finish. As for black hosiery, that is neatest and most unnoticeable of all varieties, and its accidental exposure does not challenge the eye, since it runs into the black of the shoe. Fortune forbids that the white stockings of our mothers' girlhood ever come into fashion again! They made the most delicate feet and ankles look clumsy, and, while easily washed, they needed to be changed twice a day in order to be kept neat. There is a kind of china doll sold in cheap shops, with crockery legs, over which are painted black boots over white hosiery, these latter tied below the knee with pink garters. The

BICYCLE SUIT.

very "moral," as old-fashioned people say, of these stockings may be found in garret trunks, made of fine white cotton. They are very short compared with modern standards and are finished at the top with lines of a vivid pink that no amount of boiling will alter. This dye would make somebody's fortune in muslin, but it is never found except in these out of date stockings.

As a change brown is recommended for shoes as approximating more nearly to dirt color and being agreeable in itself. After all, however, it takes a pretty and a small foot to look well in anything except black, and as most modern women think a small foot the last, best gift of nature black will probably retain the supremacy for general wear.

A sketch is given of a Parisian bicycle suit of beige cloth. The full divided skirt falls a little below the knee and is fastened around the leg by a close fitting piece with three buttons. Plain hose are worn and low tan shoes. The short, close jacket is adorned with applications of white cloth and has revers opening over a pink batiste shirt waist. A black scarf accompanies the suit and a black velvet student's cap.

JUDIC CHOLLET.

THE USE OF HAIRCLOTH.

How to Stiffen Wide Skirts—American Extremes in Fashion.

Although immense quantities of haircloth are or have been used for skirts here, in Paris they are satisfied with stiff facing from 10 to 15 inches in depth. Excellent qualities of lining are used, but the great weight and bulk of our American skirts are unknown. The fact is that as soon as Paris has pronounced narrow skirts fashionable modistes on this side of the water, determined to be in the front of the style, cut down their model gowns to mere scabbards, so straight as to confine the wearer like a plaster cast. On the other hand, now that Paris sets the example of skirts wide in circumference and necessarily, therefore, held out by stiffening, in America we immediately line our skirts throughout with the stiffest haircloth we can get, regardless of its weight and clumsiness. It may well be announced that a decrease of dimensions and stiffening is shortly to ensue, for the natural reaction is sure to set in sooner or later.

The stiff facing should always be cut just like the skirt as far as it goes, the long way of the haircloth corresponding with the length of the goods, and the necessary pleatings being made quite flat and of the proper shape. The bottom of the

CREPON COSTUME.

skirt should be turned under in a narrow fold, which includes the goods, haircloth and lining. The upper edge of the facing is sewed to the lining, no evidence of it appearing on the outside of the skirt. Cambric and silesia no longer serve satisfactorily as linings now that skirts are expansive, silk or alpaca being necessarily substituted in order that the folds may stand out well and remain firm and substantial.

The illustration shows a costume the godet skirt of which is of amethyst crepon. The blouse bodice is of mauve and white glace taffeta, closing in front under a buttoned plait. The small, pointed belt and turnover collar are covered with guipure. There is a large, open collar of plaid taffeta, having double revers and cut in deep points, edged with black velvet. The revers are fastened to the lower end by velvet choux. The sleeves are of bias crepon. The stringless capote worn with this gown is composed of orchids and has an aigret of reeds.

EXPLAINED.

CONFIDENCE IN THEIR PRODUCT LED THE SHAKERS TO MAKE AN UNUSUAL OFFER.

People of this day and generation are not disposed to give things away. When therefore the Mount Lebanon Shakers recently stated that any one could get a bottle of Digestive Cordial by calling in person at their New York office, it excited a great deal of talk.

One of the leading dailies of the Metropolis sent a reporter to find out what was meant. It developed that the preparation in question has proven beneficial in so large a majority of cases that nine-tenths of the people who are sufficiently anxious to call for a sample, find so much relief that they continue the product's use and tell their friends about it. As a result a very large demand has been created.

The Shakers have a long record of success as inventors and their various medicinal products have always enjoyed a high reputation. The Digestive Cordial is not only nourishing in itself but it digests other foods when taken as directed.

Sleepless nights, spots before the eyes and a sense of heaviness after eating, loss of weight and general weakness are among the common symptoms of indigestion which it promptly relieves, and it is gratifying to know that such a positive and harmless remedy as the Digestive Cordial should have at last been devised.

The common idea about consumption is that it is a lung trouble, but this is not all. Why is it that the consumptive gets thinner and thinner until he has wasted to a skeleton? Because the food he eats does not nourish him. It has not digested.

The first sign of the appearance of consumption is growing thin, wasting; this is before the cough; before the expectoration. Stop the wasting and recovery will follow in the incipient stages, and the disease will be retarded in advanced cases.

Don't Trust To Luck

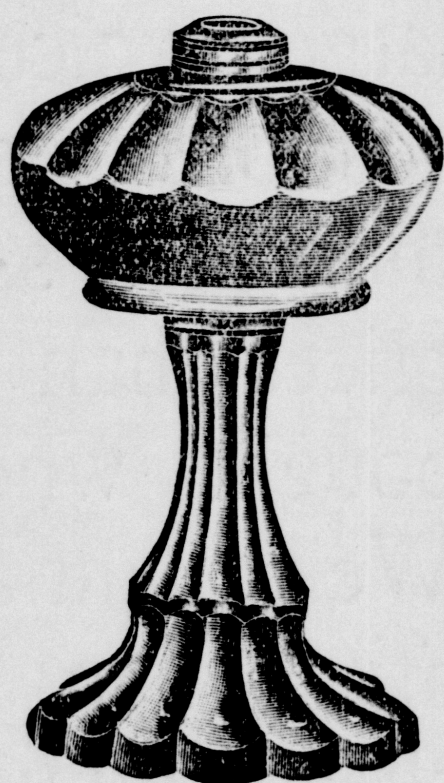

And imagine that you can wander into any hardware store and be treated right. Experience teaches that unscrupulous dealers take advantage of unsuspecting customers. There are no angels back of our counters, but you will find that honest business methods prevail and that the "live and let live" policy is strictly adhered to. It is our aim to make each and every person who enters our establishment a customer, and it is only by giving them dollar for dollar goods, placing before them only such goods as we positively know to be value goods and will be a constant salesman for our establishment, that we can attain that end. And we are fast succeeding.
